Our Education System

Visit [Fairtest.org](https://www.fairtest.org) for full list of Test Optional Schools

School Testing Policies

- Since the pandemic, many schools have chosen to remain Test Optional for the current senior class
 - Even though many schools are test optional, some programs may still require test scores to be submitted for certain programs
 - What does this mean for current juniors?
 - Although many schools will remain Test Optional for the current junior class, it is important to stay up to date on testing policies for each individual school
 - It still make sense to submit your test scores even if your schools are Test Optional
-

Making Your College List

Reach

- Academically challenging: school whose admission criteria is above a student's profile
- Selective admissions
- Potentially high cost of attendance

Target

- Student is likely to be admitted because school's admission criteria is within a student's profile
- Student would be happy to attend that college
- Would not be financially overwhelming to attend

Safety

- Student is almost certain to be admitted because school's admission criteria is generally lower than a student's profile
- Student would be happy and get a good education there
- Affordable with reasonable effort

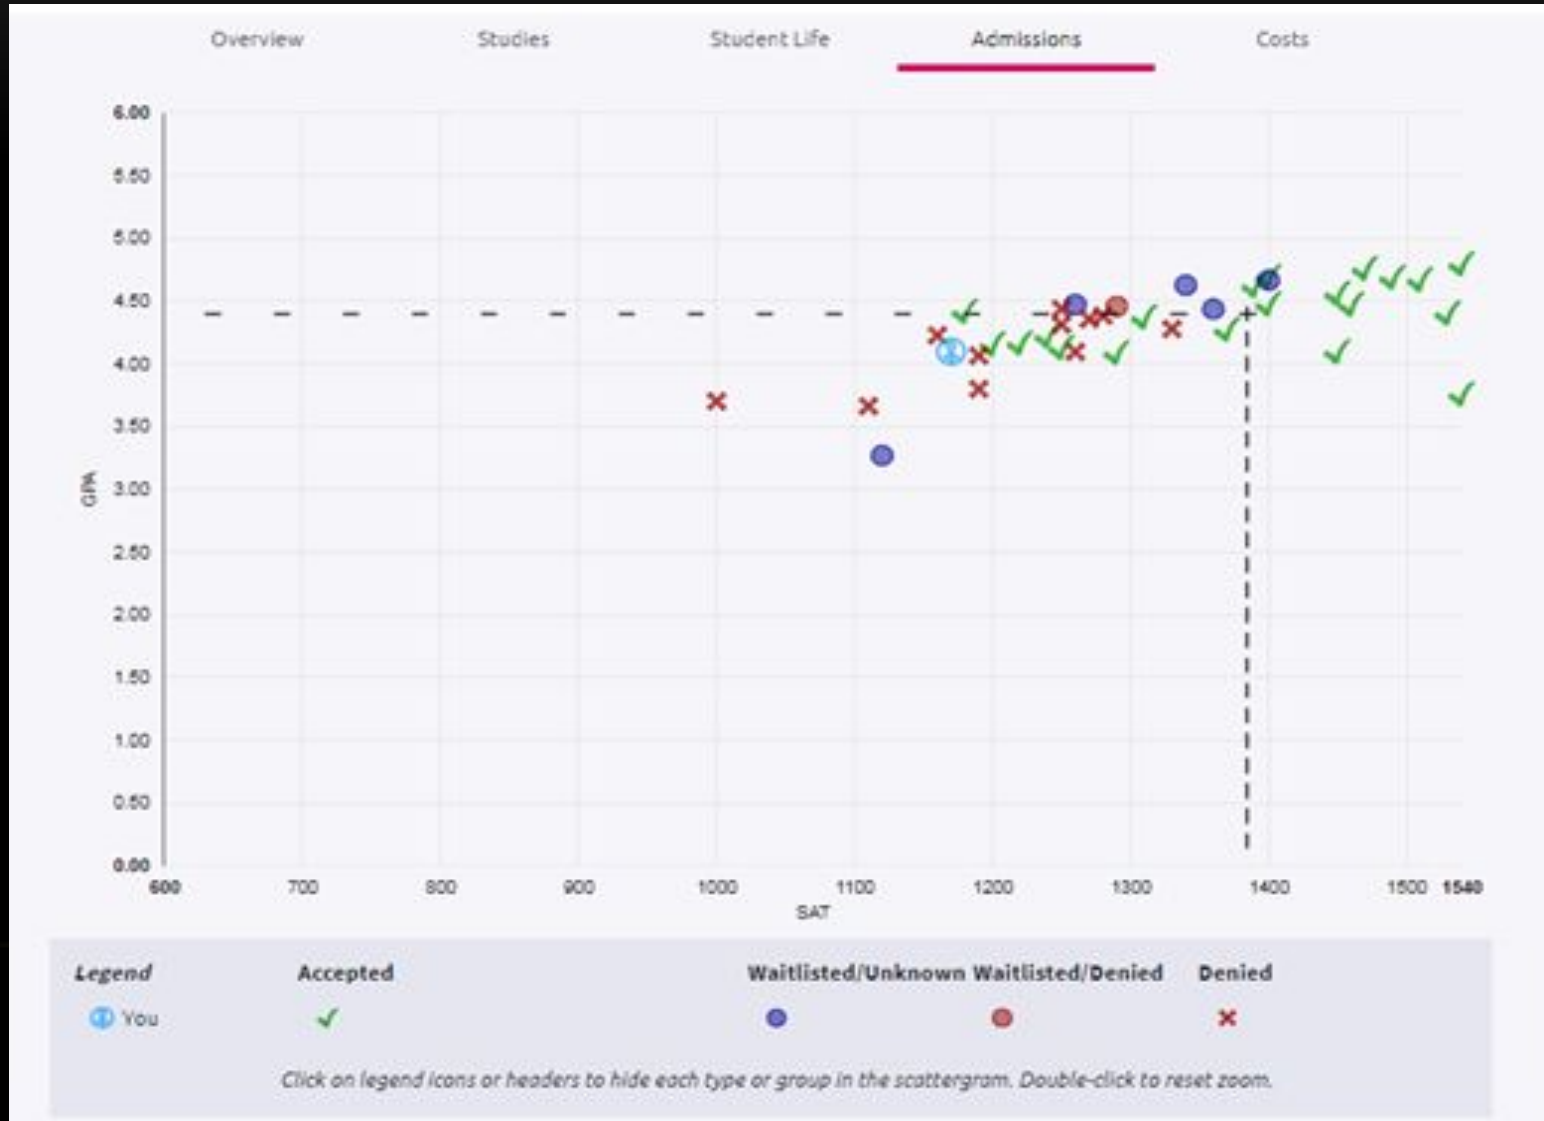

What Makes a College List Great?

- A final college list that includes 6-10 colleges
 - Each college classified as Reach, Target, or Safety
 - The bulk of the list is “target” schools
 - Every college on the list is a school the student would be happy to attend
