

# Dual Enrollment

---

HASBROUCK HEIGHTS HIGH SCHOOL  
2022-2023

# What is Dual Enrollment?

---

- A **Dual Enrollment** course is a class sponsored by a college or university, which provides an opportunity for high school students to earn college credit by taking college-level courses at Hasbrouck Heights High School.
  - The courses are taught by high school teachers who meet college-level educational standards.
  - Upon completion of the class, students receive credit from the sponsoring college or university and can apply to transfer these credits, if accepted, to whatever college or university they will be attending.
  - Students can take a Dual Enrollment course without signing up for college credits.
  - College credits will **not** be awarded without registering and payment.
  - Students must earn a C or better in the program to receive credit. A grade of "D" or "F" will result in issues during the transfer process to the college or university of their choice. Low grades will not result in the refund of tuition. Grades cannot be removed from a transcript.

# What are the benefits of DE?

---

- Students have the ability to earn college credits while simultaneously fulfilling high school requirements.
- Students will experience an enhanced and challenging level of learning.
- College credits are generally transferable to most NJ colleges/universities ( [www.njtransfer.org](http://www.njtransfer.org)) and many post-secondary institutions out-of-state.
- College courses are offered at a significantly reduced rate of tuition in a substantial financial savings towards college education.
- Students gain an earlier insight into potential careers.
- Please note: we do not guarantee that all colleges and universities accept transfer credit. Please contact the school that you are interested in directly and ask what their policy is on dual enrollment credits.
