WEB MATH MINUTE

[Home](#) [Sheets](#) [Online](#) [Scores](#) [Contact](#)

Welcome to WEB MATH MINUTE. This website will help you print math sheets to practice math.

What's a MATH MINUTE sheet?

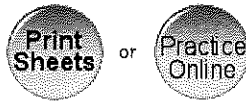

It's a sheet of paper with 50 math questions. The goal is to see how many answers a child can calculate in one minute.

Why Paper?

Children are still required to write tests with pencils on paper in school, so this website can generate sheets you can print on your printer. You can also practice math minutes online if you prefer.

Okay, what do we do?

To begin, choose whether you want to Print Sheets on Paper, or Practice Online by clicking one of the buttons below.

NEW FEATURES

- Select a specific number to practice with, so now you can practice multiplication on one specific number.
- Mix and match - Select both addition and subtraction, or multiplication and division, on the same sheet.

Grade 1:

Students should be able to solve addition and subtraction sentences for facts with sums and differences up to 18.
