

August 23, 2018

**Hasbrouck Heights Board of Education  
379 Boulevard  
Hasbrouck Heights, NJ 07604**

To Whom This May Concern,

Thank you for allowing TruGreen LP to provide pest management services this year at your schools. We have endeavored to supply a service that helps protect the students, staff and property from pests and unsafe conditions by utilizing Integrated Pest Management strategies.

As part of the New Jersey Integrated Pest Management Act (C.13:1F-24), annual notification of pesticides used within the past 12 months on school property must be distributed to parents, guardians and all school employees. During the period beginning *April 1, 2018 to the present*, the following materials were applied at the Hasbrouck Heights Schools:

<b>LIST: Material:</b>	<b>EPA Registration #:</b>
19-0-5 with Barricade	100-1456-82757
19-0-5 with Dimension 2EW	62719-542
Merit 2L	432-1312
TruPower 3	228-551
Razor Pro	228-366

In compliance with the Integrated Pest Management Act we have utilized when necessary products (low impact) for all pest complaints. The coordinated effort between **Hasbrouck Heights Board of Education** and TruGreen is proving effective in quickly solving problems as they are encountered.

As always, if you have any questions or concerns, please contact the IPM Coordinator at the contact information below.

IPM Coordinator: Dina Messery  
Telephone #: 201-393-8198  
Address: 379 Boulevard Hasbrouck Heights NJ, 07604

Sincerely,

Thomas Formoso
